Contract Diagnostics

● Critical ● Medium ● Minor / Informative

Severity	Code	Description	Status
●	FSA	Fixed Swap Address	Acknowledged

FSA - Fixed Swap Address

Criticality	minor / informative
Location	contract.sol#L891
Status	Acknowledged

Description

The swap address is assigned once in the constructor and it can not be changed. The decentralized swaps sometimes create a new swap version or abandon the current. A contract that cannot change the swap address may not be able to catch-up the upgrade.

```
uniswapV2Pair = IUniswapV2Factory(_uniswapV2Router.factory())
IUniswapV2Router02 _uniswapV2Router = IUniswapV2Router02(
    0x7a250d5630B4cF539739dF2C5dAcb4c659F2488D
);
uniswapV2Pair = IUniswapV2Factory(_uniswapV2Router.factory())
    .createPair(address(this), _uniswapV2Router.WETH());
```

Recommendation

It could be better to allow the swap address mutation in case of future swap updates.

Updated 26 August 2022

The team has acknowledged that it is not a security issue.

Contract Flow

Summary

GrowRich is an interesting project that has a friendly and growing community. The TokenStakingGrowRich contract is out of the scope of this audit. The Smart Contract analysis reported no compiler error or critical issues. The contract Owner can access some admin functions that can not be used in a malicious way to disturb the users' transactions. There is also a fixed fee limit of 15%.
