Introduction

Cyberscope audited two sections of the ABP ecosystem. The ABP token and the ABP betting mechanism.

Special Assessment

The Cyberscope hereby confirms there is not function within the contract that permits the transfer of an NFT from a player to another location (wallet or contract). This contract does permit registering the owner of the asset, but does not require the transfer of any kind to an AlphaBets contract or any other wallet or location. Players can confirm when performing a 'staking' action that no transfer rights are required as part of the transaction.

Corresponding Audits

Token Audit
