Contract Review

Contract Name	BABYTOKEN
Compiler Version	v0.8.4+commit.c7e474f2
Optimization	200 runs
Licence	MIT
Explorer	https://bscscan.com/token/0xb5ff1680e54bcb25093865d40c101d8c536a036a
Symbol	Rnowar
Decimals	18
Total Supply	10,000,000,000
Domain	https://nowars.site/index/#Rnowar-economy

Source Files

Filename	SHA256
contract.sol	610203b5ffcb749ab1dbe1f60aec6d1bc39148eb0ea77ce69bd935137ad22fe7

Audit Updates

Initial Audit	30th August 2022
Corrected	

Contract Analysis

● Critical ● Medium ● Minor / Informative ● Pass

Severity	Code	Description	Status
●	ST	Stops Transactions	Passed
●	OCTD	Transfers Contract's Tokens	Passed
●	OTUT	Transfers User's Tokens	Passed
●	ELFM	Exceeds Fees Limit	Passed
●	ULTW	Transfers Liquidity to Team Wallet	Passed
●	MT	Mints Tokens	Passed
●	BT	Burns Tokens	Passed
●	BC	Blacklists Addresses	Passed

Contract Diagnostics

● Critical ● Medium ● Minor / Informative

Severity	Code	Description	Status
●	L01	Public Function could be Declared External	Unresolved
●	L04	Conformance to Solidity Naming Conventions	Unresolved
●	L05	Unused State Variable	Unresolved
●	L07	Missing Events Arithmetic	Unresolved
●	L09	Dead Code Elimination	Unresolved
●	L12	Using Variables before Declaration	Unresolved
●	L14	Uninitialized Variables in Local Scope	Unresolved
●	L15	Local Scope Variable Shadowing	Unresolved

L01 - Public Function could be Declared External

Criticality	minor / informative
Location	contract.sol#L1487,2830,2116,1931,291,1946,2870,1764,553,1399,228,2168,1935,338,211,254,319,1407,2874,1515,1954,561,2724,2319,203,1469,1534,1756,2749,2882,1424,235,2804,273,2771,1458,2469,2336,2187,2421,2894,1450,262
Status	Unresolved

Description

Public functions that are never called by the contract should be declared external to save gas.

```
transferFrom
updateGasForProcessing
distributeCAKEDividends
get
getKeyAtIndex
isExcludedFromFees
transferOwnership
renounceOwnership
name
...
```

Recommendation

Use the external attribute for functions never called from the contract.

L04 - Conformance to Solidity Naming Conventions

Criticality	minor / informative
Location	contract.sol#L2108,1328,2372,1798,1725,1815,2107,2086,1774,1797,1391,1386,1319,1693,2168,2187,2601,2109,2175,1730,931,2201,1315,2106
Status	Unresolved

Description

Solidity defines a naming convention that should be followed. Rule exceptions:

- Allow constant variable name/symbol/decimals to be lowercase.
- Allow `_` at the beginning of the `mixed_case` match for private variables and unused parameters.

```
_name  
__gap  
_account  
PERMIT_TYPEHASH  
__Ownable_init  
MINIMUM_LIQUIDITY  
_rewardToken  
magnitude  
DOMAIN_SEPARATOR  
...
```

Recommendation

Follow the Solidity naming convention.

<https://docs.soliditylang.org/en/v0.4.25/style-guide.html#naming-conventions>.

L05 - Unused State Variable

Criticality	minor / informative
Location	contract.sol#L1843,1774
Status	Unresolved

Description

There are segments that contain unused state variables.

```
MAX_INT256  
__gap
```

Recommendation

Remove unused state variables.

L07 - Missing Events Arithmetic

Criticality	minor / informative
Location	contract.sol#L2720,2798,2792,2786
Status	Unresolved

Description

Detected missing events for critical arithmetic parameters. There are functions that have no event emitted, so it is difficult to track off-chain changes.

```
swapTokensAtAmount = amount  
marketingFee = value  
liquidityFee = value  
totalFees = tokenRewardsFee.add(liquidityFee).add(marketingFee)
```

Recommendation

Emit an event for critical parameter changes.

L09 - Dead Code Elimination

Criticality	minor / informative
Location	contract.sol#L879,1889,859,416,1558,845,2220,1315
Status	Unresolved

Description

Functions that are not used in the contract, and make the code's size bigger.

```
predictDeterministicAddress  
abs  
_burn  
_transfer  
cloneDeterministic  
__Context_init
```

Recommendation

Remove unused functions.

L12 - Using Variables before Declaration

Criticality	minor / informative
Location	contract.sol#L3034,3036,3035
Status	Unresolved

Description

The contract is using a variable before the declaration. This is usually happening either if it has not been declared yet or the variable has been declared in a different scope.

```
iterations
lastProcessedIndex
claims
```

Recommendation

The variables should be declared before any usage of them.

L14 - Uninitialized Variables in Local Scope

Criticality	minor / informative
Location	contract.sol#L3034,3036,3035
Status	Unresolved

Description

These are variables that are defined in the local scope and are not initialized.

```
iterations  
lastProcessedIndex  
claims
```

Recommendation

All the local scoped variables should be initialized.

L15 - Local Scope Variable Shadowing

Criticality	minor / informative
Location	contract.sol#L2108,2168,2187,2201,2109,2175
Status	Unresolved

Description

There are variables that are defined in the local scope containing the same name from an upper scope.

```
_name  
_owner  
_symbol
```

Recommendation

The local variables should have different names from the upper scoped variables.

Registrar IANA ID	244

The domain was created 3 months before the creation of the audit. It will expire in 10 months.

There is no public billing information, the creator is protected by the privacy settings.

Summary

Reward Nowar Token is an interesting project that has a friendly and growing community. The Smart Contract analysis reported no compiler error or critical issues. The contract Owner can access some admin functions that can not be used in a malicious way to disturb the users' transactions. There is also a limit of max 25% fees.

About Cyberscope

Coinscope audit and K.Y.C. service has been rebranded to Cyberscope.

Coinscope is the leading early coin listing, voting and auditing authority firm. The audit process is analyzing and monitoring many aspects of the project. That way, it gives the community a good sense of security using an informative report and a generic score.

Cyberscope and Coinscope are aiming to make crypto discoverable and efficient globally. They provide all the essential tools to assist users draw their own conclusions.

The Cyberscope team
