Contract Diagnostics

● Critical   ● Medium   ● Minor

Severity	Code	Description	Status
●	L01	Public Function could be Declared External	Unresolved
●	L04	Conformance to Solidity Naming Conventions	Unresolved
●	L09	Dead Code Elimination	Unresolved

L01 - Public Function could be Declared External

Criticality	minor / informative
Location	contract.sol#L301,309,1054,1384
Status	Unresolved

Description

Public functions that are never called by the contract should be declared external to save gas.

```
renounceOwnership
transferOwnership
decimals
isExcludedFromFee
```

Recommendation

Use the external attribute for functions never called from the contract.

L04 - Conformance to Solidity Naming Conventions

Criticality	minor / informative
Location	contract.sol#L8,989,1580,991,1361,1656,985,996,966,1625,1005,1623,1357,990,993,1245
Status	Unresolved

Description

Solidity defines a naming convention that should be followed. Rule exceptions:

- Allow constant variable name/symbol/decimals to be lowercase.
- Allow _ at the beginning of the mixed_case match for private variables and unused parameters.

```
WETH
_name
_pancakeRouter
_decimals
_amount
MINIMUM_LIQUIDITY
_tTotal
_liquidityFee
INIT_CODE_PAIR_HASH
...
```

Recommendation

Follow the Solidity naming convention.
https://docs.soliditylang.org/en/v0.4.25/style-guide.html#naming-conventions.

L09 - Dead Code Elimination

Criticality	minor / informative
Location	contract.sol#L912,734,797,895,877,817,841,710,778,860,765
Status	Unresolved

Description

Functions that are not used in the contract, and make the code's size bigger.

```
verifyCallResult
sendValue
functionCallWithValue
functionDelegateCall
functionStaticCall
isContract
functionCall
...
```

Recommendation

Remove unused functions.
